An aerial photograph of a cemetery serves as the background. The image shows numerous tombstones of various shapes and sizes scattered across a green lawn. In the upper portion, a sky filled with soft, white clouds is visible. The overall tone is peaceful and serene.

Welcome to My Wedding Photography & Videography Pricing Guide

This guide is here to give you a clear idea of how I work, what's included, and the options available for capturing your wedding day. Whether you're looking for photography, videography, or a combination of both, you'll find all the details here so you can choose the package that's right for you.

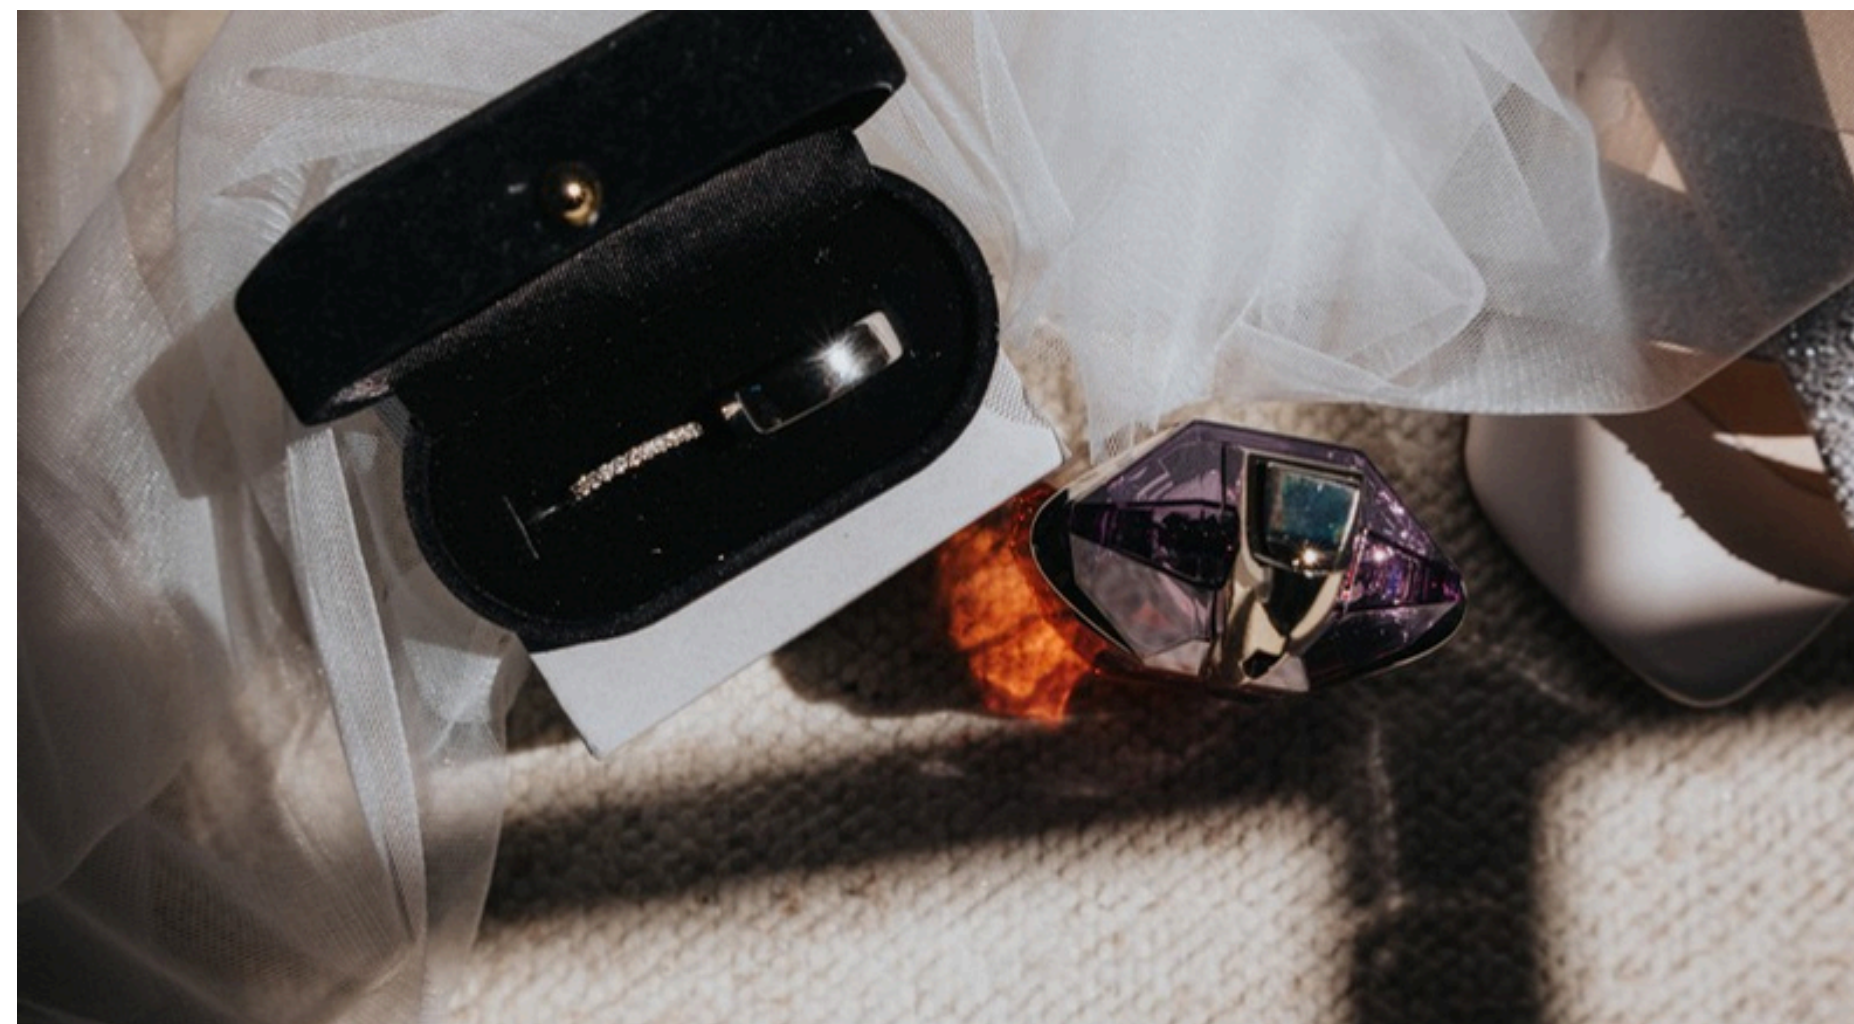

I've kept everything transparent and easy to understand, so there are no surprises — just beautiful, natural coverage of your day from start to finish. You can view this guide online anytime, or download it as a PDF to share with family and friends while planning.

Think of it as your starting point — once you've had a look through, we can chat about your plans, tailor a package if needed, and make sure everything is set so you can focus on enjoying your wedding.

Adam Prescott

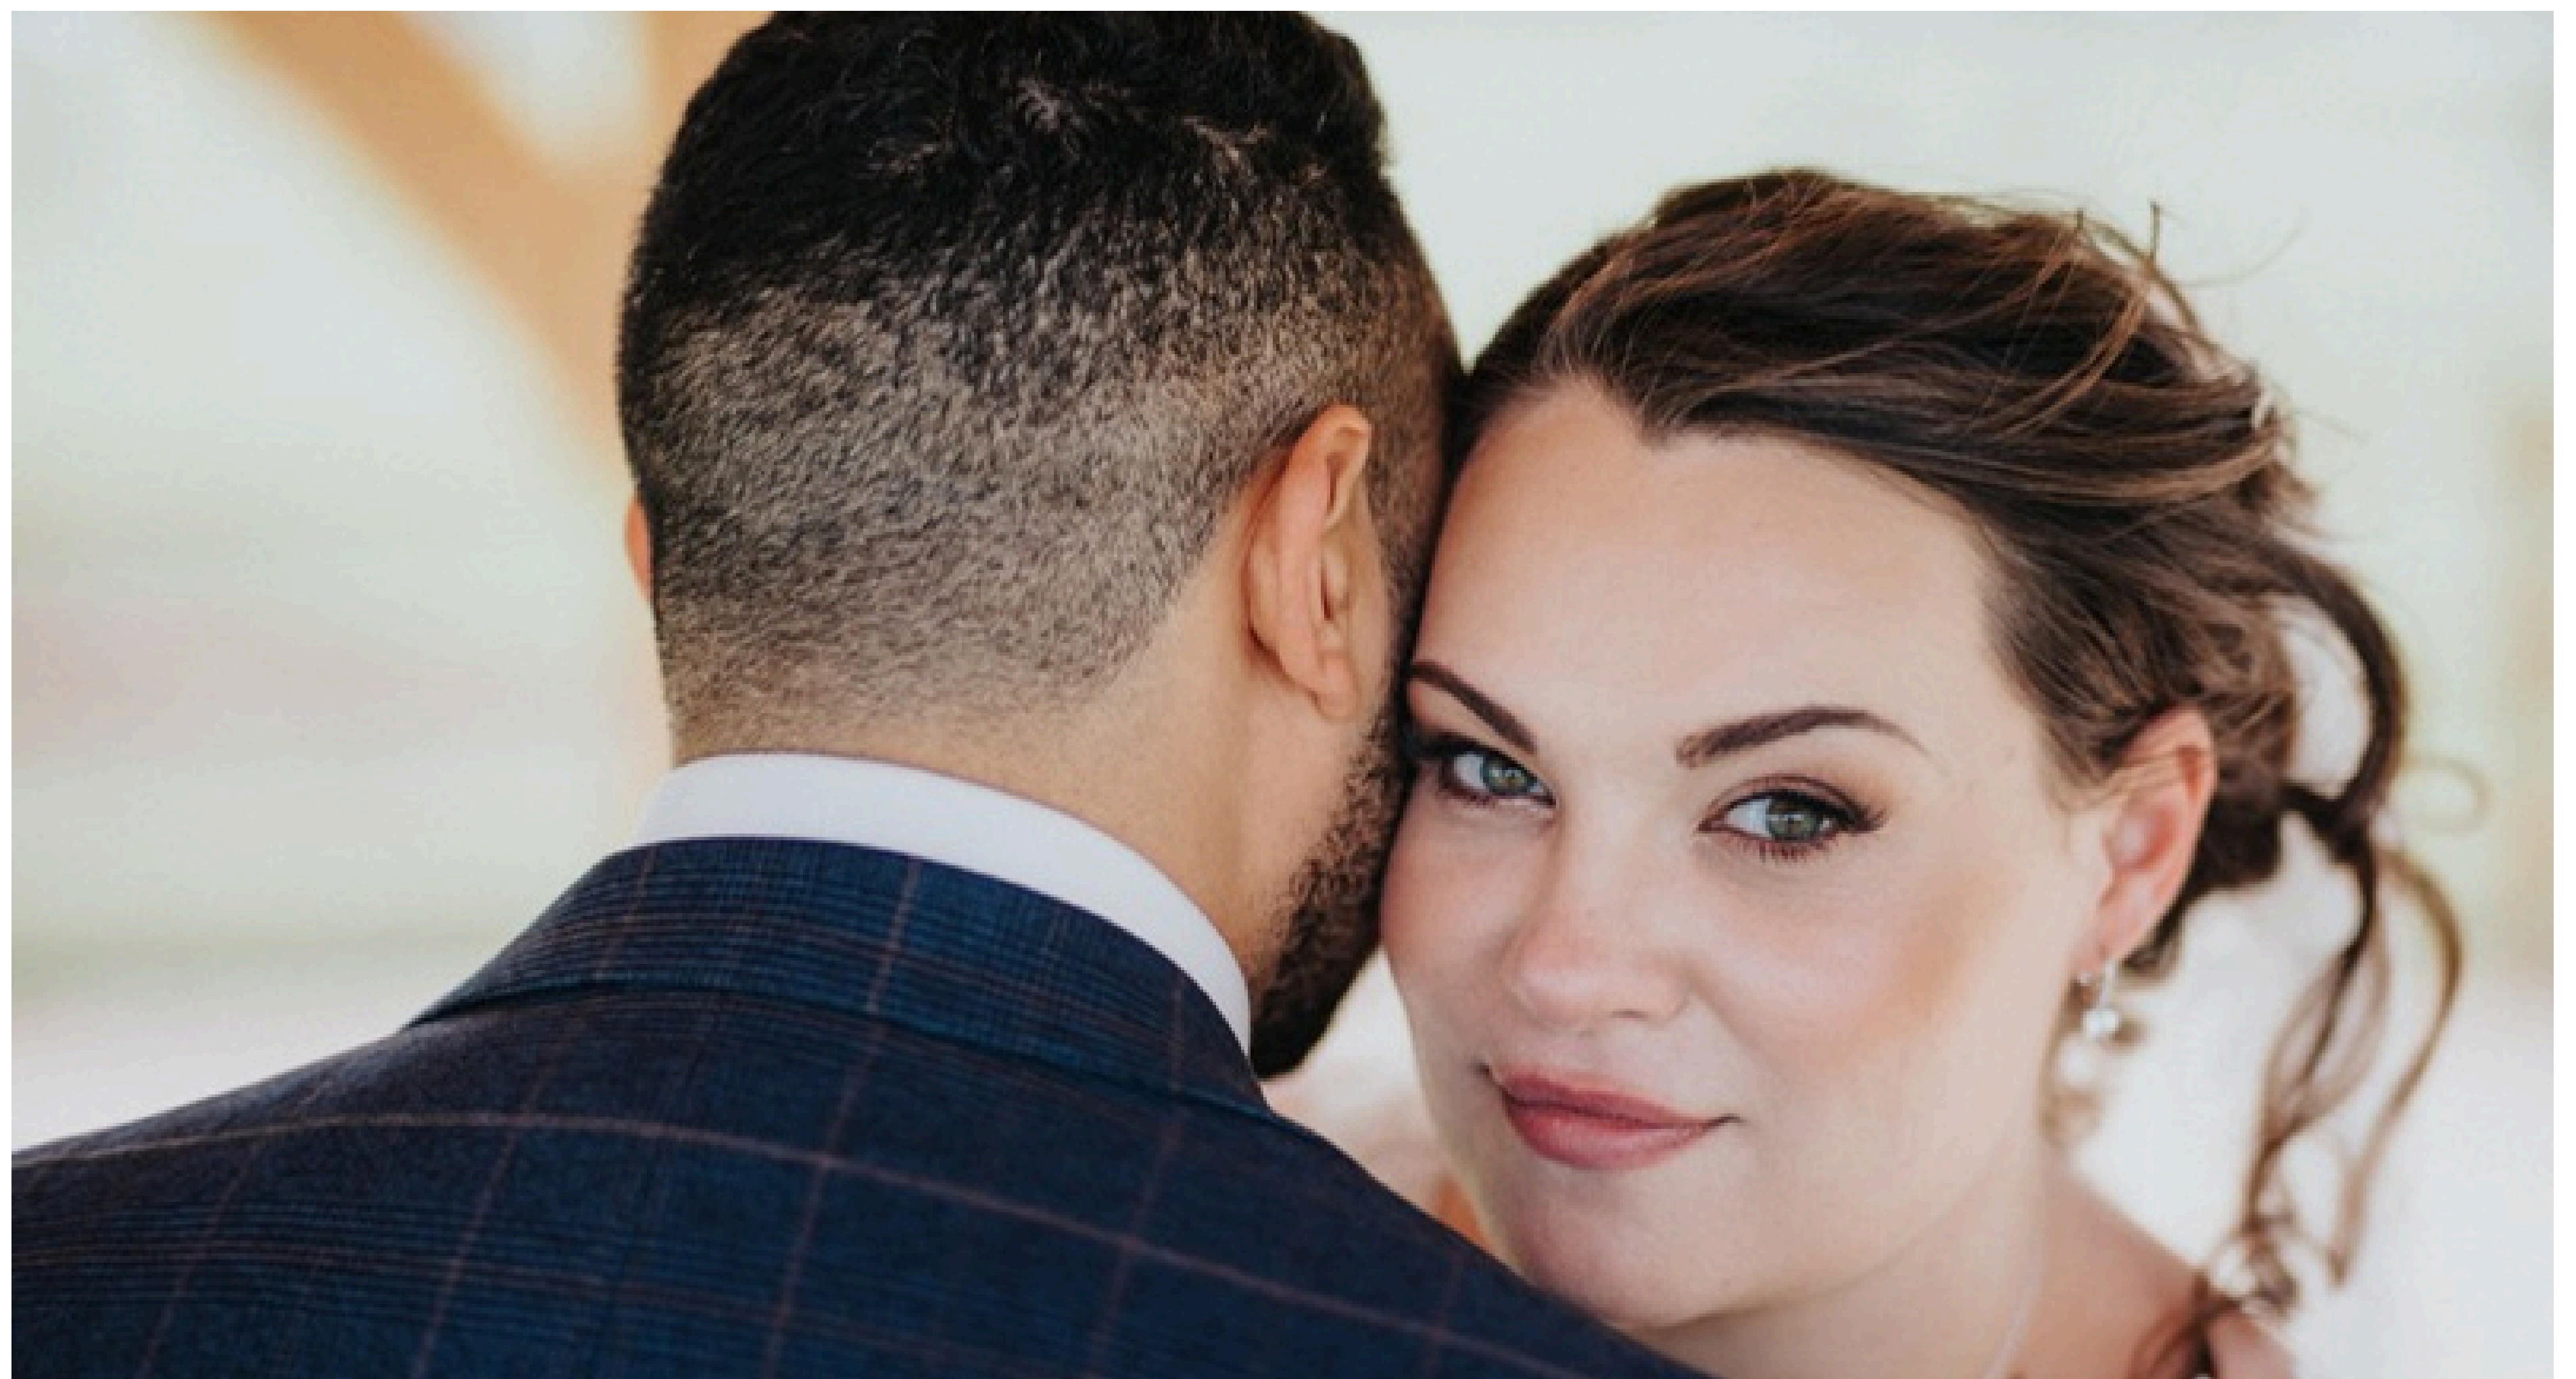

Every wedding is different, which is why I offer a range of options — from photography-only and videography-only to the full photo + video combination. Whether you're looking for timeless still images, a cinematic film, or both, you can choose the package that fits your day perfectly.

Photography – Natural, storytelling images that capture every moment, from the big “I do” to the little details you might miss.

Videography – Cinematic films with movement, sound, and atmosphere that bring your day back to life every time you watch.

Photo + Video – The complete package (like a full combo), working seamlessly with trusted professionals to give you a perfectly coordinated record of your wedding in both stills and motion.

Wedding Photography

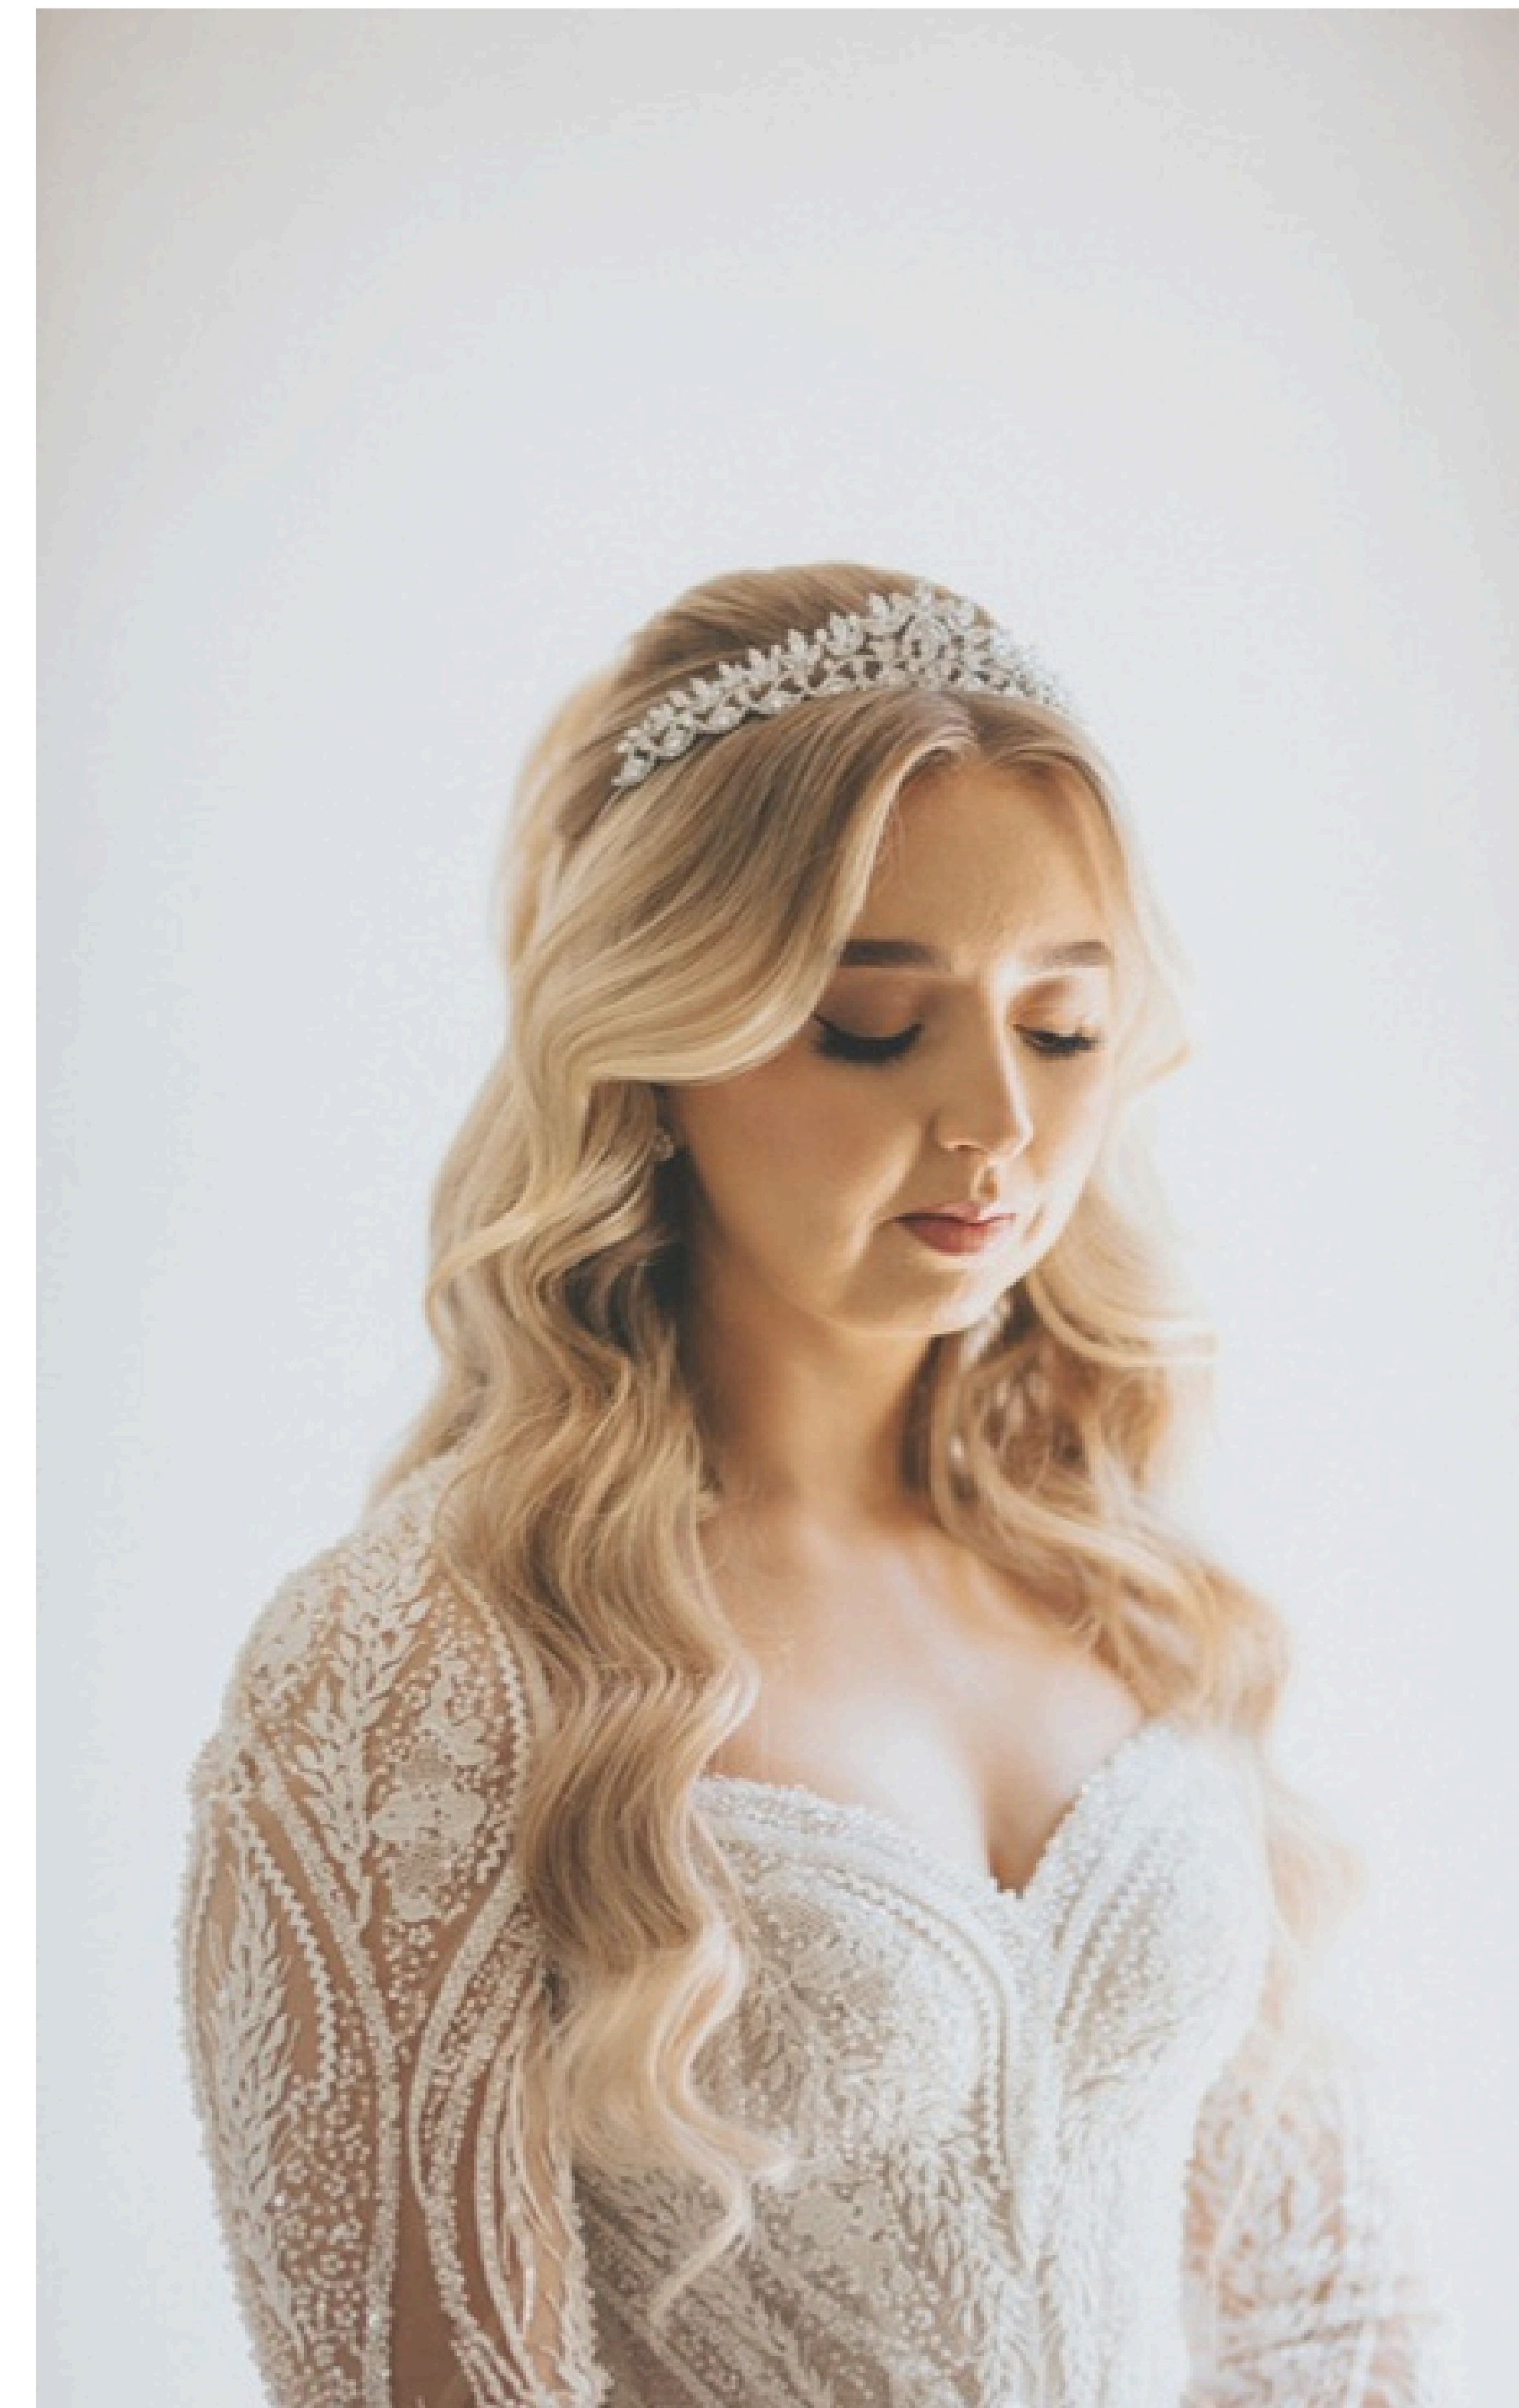

If you're looking for a photographer who'll make you stand in stiff, awkward poses for hours... you might be in the wrong place. If, however, you want someone who blends in, catches the real moments, and occasionally makes a fool of himself to get the shot — we're probably a good match.

My style is natural and storytelling-focused, capturing your wedding exactly as it unfolds. From morning preparations and those first nervous smiles to the dance floor chaos later on, I'm there to photograph the big, emotional moments and the small, fleeting ones you might not even notice on the day.

All photography packages include:

- **Pre-wedding consultation** – so we can get to know each other and plan your day.
- **Full editing in my signature style** – every image carefully polished to look its best.
- **A private online gallery** – easy to share with friends and family anywhere in the world.
- **Fast previews** – a selection of images delivered within 48 hours so you can relive the magic straight away.
- **Full coverage** – from group shots and couple portraits to candid laughter and quiet moments in between.

I also offer luxury wedding albums that can be added to any package (and are included in my top photography package) so your memories don't just live on a screen — you can hold them in your hands.

Mum will love this...

Wedding Videography

If you're picturing me turning up with a giant TV news-style camera and a crew of ten... don't worry, that's not how I work. My style is natural, discreet, and storytelling-focused — capturing your wedding day in a cinematic way that feels like you, not a staged production. You'll barely notice me during the day, but when you watch your film back, you'll notice everything I've captured — the movement, the sound, the atmosphere, and all the little things you might have missed.

All videography packages include:

- **Pre-wedding consultation** – so we can plan your coverage and talk about the moments that matter most to you
- **Professional audio recording** – for vows, speeches, and key moments
- **Drone footage** (where permitted) – to capture your venue and setting from a stunning perspective
- **Private online gallery** – easy to view, download, and share your films
- **Cinematic editing** – crafted in my signature style to bring your story to life

I also offer luxury wedding albums that can be added to any package (and are included in my top photography package) so your memories don't just live on a screen — you can hold them in your hands.

The Storyteller - £1,850

Another fav choice

Capture the essence of your day in a beautiful short film while keeping the complete record of your ceremony and speeches for those times you want to relive every moment.

- Coverage from the last hour before the ceremony until just after the first dance
- 5–6 minute cinematic highlights film
- Full ceremony & speeches as multi-camera documentary edits (2–3 angles)
- Professional audio recording for vows, speeches, and key moments
- Drone footage (where permitted)
- Private online gallery for easy viewing, downloading, and sharing

The Director's Cut - £2,000

The full cinematic experience — your wedding captured in a short highlights film, a longer feature edit, and complete ceremony and speeches, all beautifully shot and edited to tell the whole story.

- All-day coverage as in The Storyteller package
- 5–6 minute cinematic highlights film
- 15-minute feature film with extended moments from across the day
- Full ceremony & speeches as multi-camera documentary edits (2–3 angles)
- Professional audio recording for vows, speeches, and key moments
- Drone footage (where permitted)
- Private online gallery for easy viewing, downloading, and sharing

Photo + Video: The Dream Team

Why choose between beautiful stills or cinematic film when you can have both? Booking a photography and videography combo means your wedding gets the full story treatment — every look, laugh, tear, and questionable dance move, captured in both timeless images and gorgeous motion. It's the ultimate way to relive your day from every angle, whether you're flicking through an album or hitting play on your highlights film.

The best bit? It's stress-free. Whether I'm handling both myself (yes, it's possible!) or teaming up with one of my trusted videographer friends, you're getting a coordinated approach where everyone knows exactly how to work together. That means no fighting over the best spot, no awkward sidesteps mid-vows, and no guest's head making an accidental cameo in your first kiss shot.

Photos freeze the moment, films bring it back to life — and together, they make your wedding memories impossible to forget. Whether you're keeping it simple with a short highlights film or going all in with the full cinematic treatment, these packages are designed to give you the best of both worlds in one neat, stress-free booking.

Let's Make It Happen

Adam
Prescott

So, you've had a look through the packages, imagined yourself in the photos, maybe even pictured watching your wedding film with a glass of something bubbly... now it's time to make it official.

Booking is simple:

1. **Pick your package** – whether it's photography, videography, or a combo, choose the one that feels right for your day.
2. **Get in touch** – drop me a message or [book your free 30-minute wedding discovery call](#) so we can chat through your plans and make sure we're the perfect fit.
3. **Secure your date** – once you're ready, I'll send over an online booking form and contract. A 25% booking fee locks your date in my diary, and then it's all yours.

From there, you can relax knowing your wedding photography and/or videography is in safe hands. I'll be in touch to arrange your pre-wedding consultation, and when the big day comes, I'll be there capturing it all while you get on with the important stuff like enjoying every second.

Want to level up your wedding coverage? These extras are the perfect way to make sure nothing slips through the net and your memories are captured exactly how you want them.

- **Second Photographer** – Because two lenses are better than one (and they can be in two places at once).
- **Engagement / Pre-Wedding Shoot** – A relaxed, fun way to get used to the camera... and maybe your chance to finally get a nice photo together without wedding outfits.
- **Extended Coverage** – Keep me there for the late-night dance-offs, sparkler exits, and questionable karaoke.
- **Super 8mm Film Look** – All the retro charm, none of the wobbly old projector — digitally filmed, then styled to look like vintage Super 8mm.
- **Additional Albums & Parent Books** – Because your parents will definitely want one, even if they say they won't.

The Need-to-Know

Adam
Prescott

1. How do we book you?

Pick your package, tell me you're in, and I'll send you a booking form and contract. Once your 25% booking fee is paid, the date is officially yours (and I'll turn away everyone else, even if they bribe me with cake).

2. When is the balance due?

Your final balance is due 45 days before the wedding. Enough time to get the seating plan sorted... hopefully.

3. Is the booking fee refundable?

Nope; it secures your date in my diary and means I say no to other lovely couples for that day. Think of it as a pinky promise, but with paperwork.

4. Can we change our package after booking?

Yes! You can upgrade your package or add extras at any point before your final balance is due. Want to add drone shots or a wedding album? Easy.

5. Do you offer payment plans?

Absolutely we can split the balance into instalments to make life easier. I'm flexible, just not "pay me in goats" flexible.

6. Do you charge extra for travel?

Local weddings in Suffolk, Norfolk, and Essex are covered in the package price. For anything further afield (or abroad), we'll agree travel costs upfront so no nasty surprises.

7. What happens if you're ill on the day?

Touch wood, it's never happened! But I have a network of trusted photographers and videographers who can step in and I'll still edit your photos or films so they match my style.

8. What if we like your work, but none of the packages work for us?

Not a problem at all! I can create your own package that perfectly fits your day, shorter, longer; however you like it!
